May 3, 2021

On June 27, 2021, HP Inc. will increase list prices in North America on select HP printing products. This increase is a result of overall cost increases and HP's standard portfolio management process. HP regularly reviews pricing and all elements of cost for all products and adjusts as appropriate.

HP is committed to developing products and services that meet our customers' needs. This includes all HP printing and imaging products, which will continue to provide the superior value, reliability, and high-quality output that customers have come to expect from HP.

Please contact the HP Print Qualified Distributor you purchase from for information regarding specific pricing and availability. All HP Print Qualified Resellers are free to set their own resale price.

Regards,

NA HP Channel Leadership Team
